Spiritual Transmission initiation (LW Series)

This is a special edition of an initiation made by Wulf "Jedami" Dietzel and offered to the LightWorker™ system. It is a free system. It is a gift of the universe. It shall always be given as a gift to others, and it is placed as a part of the ...

What it is

Spiritual Transmission is a powerful force that is very versatile in usage. Everyone who has received this initiation will develop their own ways of using it. It raises the vibrational level and brings in more universal light to each and everything to which it is projected.

Because it is so powerful it needs a certain level of energetic and spiritual development. This means that if this attunement is received, is decided by Source alone.

Basically there are no limitations on the use of Spiritual Transmission, only ones own mind and mental concepts confine the effects.

Some aspect of this force has been available lately. Spiritual Transmission now, as given by this attunement, is a very balanced and complete energy in terms of male-female-aspects (to use classic, conservative language). It bears strength but also softness, it is lightful and strong. As the desired future of humankind will bring forth softer, more compassionate, and more tolerant qualities as have been present in the male-dominated dark age, that is about to leave, so also the energies that lightworkers are using should more and more be those of

a balanced male-female structure. This need is fulfilled by Spiritual Transmission.

How to receive the initiation

In a relaxed and pleasant sitting or lying position with eyes closed ask your Higher Self and The Source to receive the full attunement to Spiritual Transmission in the name of ... (name of the attuner).

Then relax and enjoy the flow of energy. When you feel that the attunement is finished, which probably will be after about 30 minutes, give thanks to Source and Higher Self and enjoy your new connection.

This is to be repeated on the next 2 days. Spiritual Transmission initiation consists of 3 attunement sessions, one per day on 3 consecutive days.

How to use Spiritual Transmission

As said before this is a very powerful and versatile force meant to be used in every aspect of life. It can be brought into all energy work and greatly enhance and increase its efficiency. That means, above all, to use it with a keen sense of responsibility only for purposes of the light, and that is the reason why it is protected by The Source and only given to those who are ready for it.

These are some possible areas of usage:

You can send Spiritual Transmission to planet Earth, to Sun, and to our solar system for healing and vibrational transformation. You can also imprint this transmission with thoughts, mental concepts, and the feeling of love to program it.

You can send it to areas of the world where help is needed, to individuals, to animals, and plants, even to the oceans, earth grids, whatsoever.

You can correct karmic problems with it, use it for cleansing and purification.

You can work back and forth in time and dimensions, use it to release yourself or others from limitations of any kind.

Spiritual Transmission has a very protective capability. If you ever should be attacked or harmed by any psychic forces or beings it will give you perfect protection and shielding. But please be aware that you should only use it defensively, any offensive attempt to do harm will fire back at you!

Particularly regarding the protective quality of Spiritual Transmission you should always be aware that it is a problematic attitude to look at the world with a consciousness of seeing enemies and conspiracies behind each corner. Those who project those things will abundantly find them. It is much better to use the projecting power of the mind to see light everywhere without denying some shades of it, of course. Be a seer of light, not of darkness! Let us be peace-bringers, not warriors!

How to pass on the initiation to others

It is easy to attune others to Spiritual Transmission. In a relaxed and pleasant sitting or lying position with eyes closed connect to this energy.

When you feel the energy just ask your Higher Self and The Source to attune ... (name of the attunee) fully and completely to Spiritual Transmission. Then let the energy flow as long as it will. After the flow of energy has finished, give thanks to Source and Higher Self.

Please keep in mind that even though there must be an attuner to give the attunement it is completely up to Source to release it and only Source will decide to whom this attunement is given. It is not in the hands of the attuner.

Please respect that this system is a free gift of the universe and shall always be given as a gift to others.
